ABOUT ME

I'm **RAJ RAVI**, based in Tamil Nadu, India. I'm a front-end developer passionate about web designing and development, basically an engineer in "computer science and engineering" major. I design and develop websites and web applications. Dynamic in nature, a team player also has the ability to lead a team.

OBJECTIVES

I would like to work in a company where, I should explore myself everyday along with the company's growth. To play a challenging role is my primary agenda.

PROJECTS

- **Forkify** recipe finder web application, this web app fetches more than 100k recipes and procedures to cook. Developed using JavaScript and forkify API (<https://forkifyy-recipes.netlify.app>).
- **Tracalorie** this web app tracks your calories and persists the data and will display whenever you need it. It is developed using JavaScript and bootstrap (<https://tracaloriee.netlify.app>).
- **PostBook** this web app is developed for sharing the posts. It has json server for DB is a CRUD application. Developed using JavaScript (<https://post-book.netlify.app>).

INTERESTS

- Composing music
- Reading books
- Blogging
